

Product Certificate

Jørgen Kruuse A/S hereby declare the following details regarding the mentioned product

Item number

122000, 122001, 122005, 122010, 122015.

Product name

EQUIVET HiFlow long-term IV catheter.

10 pcs/pk.

**Product type**

The EQUIVET HiFlow LongTerm (HFLT) IV Catheter softens at body temperature. Some common catheter-related problems, such as phlebitis, can be minimised with these polyurethane catheters. Non-thrombogenic and non-cracking. Can be safely left in the vein for up to 30 days . Suture wings with holes.

Traditional jugular catheters are teflon and can create a thrombosis or crack if left in place for over 48 hours. The polyurethane large bore catheter over needle enables the catheter to dwell for up to 30 days.

Only for veterinary purposes

Size

Item number	Size	Colour
122000	16G x 3,0"	Pink
122001	16G x 5,25"	Pink
122005	14G x 3,5"	Black
122010	14G x 5,25"	Black
122015	12G x 5,25"	Olive

Material

Polyurethane.

Colour

See table above.

Storage condition

Dry cool place.

Shelf-life

5 years

Origin

US

Last revised

31-aug-2017

Version
